ABOUT ME

Experienced React Front-End Developer with a strong command of Node.js and MongoDB. With a passion for crafting intuitive and responsive user interfaces, I bring creativity and technical expertise to web development projects. I have a proven track record of creating dynamic, user-focused web applications that seamlessly integrate with back-end systems. My in-depth knowledge of Node.js and MongoDB enables me to design full-stack solutions, ensuring efficient data handling and enhanced user experiences. I thrive in collaborative environments, where I contribute to the end-to-end development process, from concept and design to implementation and optimization. With a commitment to staying up-to-date with the latest web technologies, I am well-equipped to deliver high-quality, scalable, and performant web applications that exceed user expectations.

WORK EXPERIENCE

Front-end Developer | MAY - 2022

KTL, Khartoum | OCT – 2022

I worked at KTL as a front-end developer with React, I worked on logistics dashboard project
